

Blessing Onyebuchi

UI|UX Designer

I am a dedication UI/UX Designer specialising in creating elegant and meaningful user experience. I have a total of 2 years of experience, ranging from UI design, UX writing, Interaction wire framing, mockups, prototyping and testing.

My primary focus throughout, has been to create -

- **Data-driven UI design**
- **Adaptable design systems across stand-alone & web-based**
- **Responsive, multi-screen UI design**
- **Interaction Design**

Experience

- Junior UX Designer, **Oatomeia** April 2022 - present
- Design Intern, **Gurudemy** September 2021 - April 2022

Projects

Nautic Mobile- A Transportation App 2022

- Responsible for co designing the user interface and experience covering the key part of the app of this project.
- I was half the design team, worked closely with 3 developers and 2 product managers to ensure the feasibility and functionality of this project.
- Improved usability across the platform
- Experimented on auto-convert Figma to Javascript workflow (currently in progress).

Coinport - A Cryptocurrency Portfolio Management App 2021

- Conceptualised & created the user experience, visual design and logo.
- Sole creator of the product.
- Successfully implemented fully the standard design process.
- Created user interface, ranging from wire framing, high fidelity, prototype, testing and iterations.

Web + Mobile App Designs 2021

- Created 5 mobile app UI designs & wireframes (1 of which is live).
- Worked on more than 2 web app designs.
- Worked with 3 other designers to create prototypes for mobile apps and web.
- Implemented multiple design system for multiscreen projects.
